

Application

Support Collars are used with access boxes to adjust the height of the access point to the finished ground level.

They ensure the cover or frame sits correctly and safely in the surrounding road, pavement, or driveway.

6" Support Collars

Technical Specification

The 6" Circular Support Collar (**Lugged & Plugged**) features a **locking mechanism** that attaches to a **Quad Box**.

They have a role in providing a secure, easily accessible and dependable solution for accessing **underground utilities** for maintenance and repair.

Support Collars are tested to ensure they can withstand the **heat of freshly laid tarmac**, the wear of **traffic and heavy footfall** and endure **underground conditions** for extended periods.

Made from **Reprocessed Polypropylene (PP)**.

*This is a **made to order** item*
