

Application

Insulation retaining washers are used in conjunction with screws to secure insulation to timber, sheet steel and other non standard base materials.

Insulation Washers

Technical Specification

Manufactured from high strength **Glass Filled Nylon, (or PolyProp)** these stemmed washers are **46mm** in diameter, and feature a recessed mounting for a screw head.

This reduces **cold-bridging** and allowing for movement without damage to the surface finish.

Two versions are available, short stem with **5mm** recess and long stem with **12mm** recess.

*This is a **stock item** available for immediate delivery*

Pack Quantities

Our clips can be re-packed to your specification
