

Application

The 110mm 4-Way Pipe Spacer is for use on multi-pipe projects where several 110mm ducts are placed together in one trench.

They ensure pipework is evenly spaced apart to ensure correct back-fill and support

4 – Way Spacers

Technical Specification

Made from **Reprocessed Polypropylene (PP)**, these spacers provide a **robust and versatile** solution for installations involving more than one pipe duct inside the same trench.

These **110mm Spacers** can be manually split in half both vertically and horizontally and used as 2 separate **2-Way Spacers**.

Alternatively, they can also be **interlocked with more 4-Way Spacers** to accommodate for greater multiples.

*This is a **made to order** item.*
