

Application

Grade Plate Spacers are used to support reinforcement systems embedded inside concrete

The wide base provides even distribution of weight, preventing damage to waterproof membranes and soft grade base material

Grade Plate Spacers

Technical Specification

Grade Plate Spacers are available in several sizes offering cover from **40mm-100mm** on a reinforcement bar diameter of **4-16mm**

Made from high grade **Reprocessed Polypropylene (PP51)** these spacers offer a corrosion resistant and mechanically strong solution for many kinds of concrete reinforcement systems

All of the Grade Plate Spacers manufactured by Techmarkets are fully tested and comply with **BS7973-1:2001**

*This is a **stock item** available for immediate delivery*

Pack Quantities

Each plate provides **two** cover options

Product Code	Product Name	Cover	Pack Quantity
20262	GP 40 / 50	40mm / 50mm	200 (20,000 per pallet)
20264	GP 65 / 75	65mm / 75mm	200 (10,000 per pallet)
20265	GP 90 / 100	90mm / 100mm	100 (10,000 per pallet)
20262-E	40 / 50 HD	40mm / 50mm	200 (14,400 per pallet)
