

Application

Panel pads are used to protect and separate precast panels during curing and storage

Concrete Panel Pads

Technical Specification

Our Panel Pads are sized at **150mm x 65mm**, and are available in **Soft** and **Rigid** variations depending on the best fit for your application

The Soft Panel Pads are made from **Flexible Virgin Polyvinyl Chloride (PVC)**, and the Rigid Panel Pad are made using **Virgin High-Density Poly Ethylene (HDPE)**

Both of these materials have been purposely selected to minimize possible colour contamination with the concrete panels during storage

*This is a **stock item** available for immediate delivery*

Pack Quantities

Both variations of Panel Pads are sold in the same quantity

Product Code	Product	Pack Quantity
20240	Panel Pad (Rigid)	100
20240 - FLEX	Panel Pad (Soft)	100
