

Application

Insulation Retaining Clips are used in cavity walls to hold insulation in position.

Securing insulation to the inner wall allows for optimum performance

Retaining Clips

Technical Specification

Techmarkets universal retaining clips are designed to fit **flat metal ties** up to **3mm** thick, and round wire ties up to **6mm** diameter.

The clips are made from corrosion resistant **Virgin Polypropylene (PP)** and their 70mm diameter means they offer good, reliable performance with both rigid and soft types of insulation.

All types of Insulation Retaining Clip serve the same purpose, to find the best fit for your application speak to a member of the team today.

*This is a **stock item** available for immediate delivery.*
